

AMAN GUPTA

DevOps / Cloud Engineer

aman.gupta@example.com | +91 54321 09876 | Gurugram, Haryana | linkedin.com/in/amangupta | github.com/amangupta

PROFESSIONAL SUMMARY

DevOps and Cloud Engineer with 5+ years designing and managing cloud infrastructure, CI/CD pipelines and containerized deployments at scale.

CORE SKILLS

AWS · Docker · Kubernetes · Terraform · Jenkins · GitHub Actions · Python · Bash Linux · Security · Networking · IAM · CI/CD · Monitoring · Prometheus

PROFESSIONAL EXPERIENCE

DevOps Engineer

2022 - Present

Microsoft

- Manage cloud infrastructure for 100+ microservices.
- Achieved 99.99% uptime for critical services.
- Reduced deployment time by 80%.

Cloud Engineer

2020 - 2022

Amazon

- Designed AWS infrastructure for consumer services.
- Built automated CI/CD pipelines.

Site Reliability Intern

2019 - 2020

Adobe

- Assisted with monitoring and incident management.

KEY PROJECTS

AWS Cloud Infrastructure

AWS, Terraform, Docker, Kubernetes

- Designed and managed cloud infrastructure for 100+ microservices with IaC.

CI/CD Pipeline Framework

Jenkins, GitHub Actions, Docker, Kubernetes

- Automated CI/CD pipeline framework reducing deployment time by 80%.

Security Audit Tool

Python, Linux, Docker, AWS

- Automated security scanning tool for containerized applications.

EDUCATION

B.Tech, Computer Engineering

2020

Delhi Technological University

CERTIFICATIONS

- AWS Solutions Architect Professional
- Certified Kubernetes Administrator (CKA)
- Terraform Associate
- CompTIA Security+
