

RITIKA SINGH

Security Engineer / ML Engineer

ritika.singh@example.com | +91 43210 98765 | Delhi, NCR | linkedin.com/in/ritikasingh | github.com/ritikasingh

PROFESSIONAL SUMMARY

Cybersecurity engineer with 6+ years in threat detection, penetration testing and security automation. Combines ML expertise with deep security knowledge.

CORE SKILLS

Python · Cyber Security · Networking · Linux · Ethical Hacking · Machine Learning · AWS · Docker

Bash · SIEM · Penetration Testing · OWASP · Kubernetes · Terraform · Go

PROFESSIONAL EXPERIENCE

Security Engineer

2022 - Present

Google

Built ML-based threat detection reducing false positives by 40%.

Led security automation across 200+ servers.

Security Engineer

2020 - 2022

Uber

Performed penetration testing for production systems.

Developed automated vulnerability scanner.

Security Analyst

2019 - 2020

Paytm

Monitored SIEM alerts and incident response.

KEY PROJECTS

Cybersecurity Threat Detection

Python, Machine Learning, Linux, Networking

ML-based threat detection system reducing false positives by 40%.

Network Security Scanner

Python, Networking, Linux, Ethical Hacking

Automated network vulnerability scanner for enterprise clients.

Security Automation Platform

Python, Bash, AWS, Docker

Automated security compliance checks across 200+ servers.

EDUCATION

B.Tech, Computer Science

2019

Indian Institute of Technology, Delhi

CERTIFICATIONS

- Certified Ethical Hacker (CEH)
- CompTIA Security+
- AWS Security Specialty
- Offensive Security Certified Professional (OSCP)
